

A home gives us shelter. Its walls keep in heat. Its roof keeps out rain and snow. 2

18

All of these things make a home. But homes do not look the same everywhere. 3

19

Student Reader, Book 2, pp. 18–19

★ 2 Answering Questions Teacher Prompt: *The text answered our questions and told us a lot about what a home is. What answers did the text provide?* **Possible Student Responses** *A home has a roof to keep out rain and snow. It has walls to keep out wind. The walls and roof can keep heat in a home.*

3 Summarizing Teacher Prompt: *Let's think about the things listed in the selection that make a home. Can you summarize the information about what makes a home?* **Possible Student Response** *A home is a safe place to eat and sleep and a place to stay warm and dry.*
