

Comprehension Strategies

Introducing Strategy Use

Teacher Modeling

7 Asking Questions *What does the title of this page mean? Rocks are very hard. How can the wind hurt them? Maybe we'll find the answer as we read.*

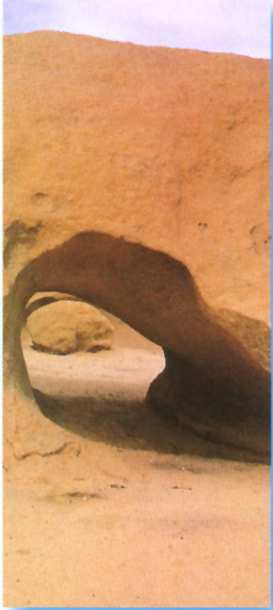

Teacher Modeling

8 Asking Questions *Our question was answered here. Now we know that the wind carries the sand. Then the sharp sand smooths the rocks. By reading more, we were able to answer one of our questions.*

7 Wearing Away at the Rocks

Have you ever been on a beach when the wind has blown the sand against your legs? It stings!

38

Power from the Wind

In the past, windmills have used the power of the wind to grind corn and to pump water.
